Maui Fires community response assistance, and online portal and map for relief resources. Over 60K viewed.

PLAN / AMP 2nd Generation infrastructure major milestone.

Partnership with Non-Profit Telecom Provider

Empowering education. Enhancing connectivity.

Mobile Broadband Services

We provide affordable, reliable, and secure access to the country's largest and fastest 5G network.

Devices & Software

The only non-profit pairing low cost broadband internet services with social impact innovation.

Social Impact Innovation

We reinvest surpluses from our services into technology designed for education, science, and underserved communities.

Mission Critical Communications.

Our cutting-edge technology and communications services are designed for education, STEM, public art, non-profits, and underserved communities.

PLAN Mobile | Member Services

Technology Innovation

Discover software & technology innovations in our network that bridge the digital divide with mission critical systems.

Connected Devices

Ensure a seamless, secure, and high-speed connection on the go, while minimizing connectivity interruptions.

Wireless Internet

Boost your organization with fast, reliable 5G internet, offering seamless connectivity without the need for cables.

Mobile Hotspots

Stay connected on the go to what matters most with affordable, secure, and robust 4G and 5G mobile hotspots.

Bring Your Own Device

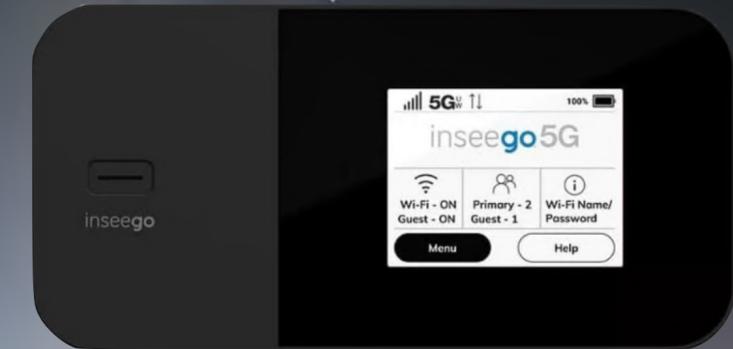

Easily switch your existing compatible devices to our premium, unlimited data plan.
